

The **QUUPIDZ FAMILY**

EMPATHY EDUCATION @BBTNB

Awww new love! The Quupidz Family are really just a newly married couple who have both been struggling their whole life with a terrible disorder.

The Quupidz LOVE the backwards, the upside down and the completely abnormal. Trees upside down, houses that are backyards and backyards that are living places and even Lava Lakes! They love dark and cold instead of bright and warm and they even like gross animals instead of cute!

This disorder is horrible but we are hoping that you can help build them a dream home experience that will make them finally feel at home.

- Here are their needs and interests if it helps:
- Mrs. Quupidz loves to read books from back to front
 - Mr. Quupidz loves to take mud baths jumping in clean and getting filthy
 - They love living in mountains surrounded by flatlands or on flatlands surrounded by mountains.
 - They love opposites of "normal"
 - They stay up all NIGHT but sleep all day
 - They love bright / neon / abnormal colours
 - Their house can be their backyard and their backyard their house
 - Their house can be glass and their windows wooden
 - Their beautiful lakes are lava and their trees are upside down
 - Anything you can do to give The Quupidz Family the opposite of "normal" life they need is appreciated.
